NEW B.O.Y recognizes liability for consequences due to co-mingling of NEW B.O.Y. cadets to foster the full social development possible for each youth. Under Life-coach supervision, cadets will interact with each other in various capacities so that each young person enhances his life-skills to better prepare him to be responsible for his actions and be respectful to women who are a part of his life. If for any reason certain young men cannot interact with each other, the parent/ guardian must inform the NEW B.O.Y. program; thereby avoiding unintended negative consequences among the cadets.
